

Post-Doctoral Fellowships 2007

Grant Holder	Project Title
Dr Paul Dockree HRB Post-Doctoral Research Fellow Institute of Neuroscience Trinity College Dublin	Cognitive impairments in Traumatic Brain Injury: Novel biomarkers for new treatments
Dr Joyce Rubotham HRB Post-Doctoral Research Fellow Department of Biochemistry Trinity College Dublin	Organisation of the actin cytoskeleton in <i>Trypanosoma brucei</i>
Dr Colm O'Tuathaigh HRB Post-Doctoral Research Fellow Dept of Molecular & Cellular Therapeutics Royal College of Surgeons in Ireland	Gene-gene and gene-environment interactions in mutant models of psychosis: behaviour and imaging
Dr Veronica Ayllon Cases HRB Post-Doctoral Research Fellow Department of Biochemistry University College Cork	Function of PBK and p38 MAPK in promoting tumour cell migration, invasion and survival
Dr David Fitzpatrick HRB Post-Doctoral Research Fellow School of Biomolecular & Biomedical Science University College Dublin	Using comparative genomics to identify virulence characteristics in pathogenic yeast
Dr Martina Schroeder HRB Post-Doctoral Research Fellow School of Biochemistry & Immunology Trinity College Dublin	Elucidating the role of the putative RNA helicase DDX3 in anti-viral immunity and gene regulation
Dr Suzanne McFarlane HRB Post-Doctoral Research Fellow Centre for Cancer Research & Cell Biology Queen's University Belfast	Role of CD44 signalling in promoting the metastasis of breast cancer cells to bone
Dr Pat Metharom HRB Post-Doctoral Fellow Centre for Research in Vascular Biology University College Cork	Therapeutic applications of Vascular Progenitor Cells in Atherosclerosis
