Figure 2.1 Profile of the population registered on the NIDD, 2016

Notes: During the review and update period prior to the 2016 extract of data from the NIDD, 647 people were removed from the database and there were 1,094 new registrations, the largest proportion of these in the 0–9-year age group. The age and gender distribution by degree of intellectual disability of those registered on the database is summarised in Table 2.1, which shows the corresponding prevalence rates per thousand of the population.

Figure 4.1 Summary of service requirements, NIDD 2016

*'New service required' refers to a new type of therapeutic input that the individual does not currently receive.

†'Enhanced service required' refers to a change in the delivery of a therapeutic input that the individual currently receives. There are 7,910 individuals whose multidisciplinary support service change involves both a new service and an enhanced service, therefore the actual number of people requiring a new and/or enhanced service is (15,505 + 12,380) - 7,910 = 19,975

Note: NV refers to a level of intellectual disability that has not been verified and MSP refers to a moderate, severe or profound level of intellectual disability.

This table excludes people who were receiving no day service and whose only day service requirements are for multidisciplinary support services (including those delivered by an early intervention team). These people are reported in the multidisciplinary support services in Figure 4.3.

Note: The data in relation to certain day services[1] are reported and interpreted on the assumption that:

- (a) where a service of this type already exists, it will be retained by the individual, even when another service is put in place, or
- (b) where a service of this type is new to the individual, it will not replace existing services.

[1] The services involved include home support services, early intervention team, resource or visiting teacher, special needs assistant, home tutor, autism unit, home help, multidisciplinary support services, centre-based day respite service, and day respite in the home.
