

### An introduction to the platform

Dr Irene Castellano, Health Research Board Ireland

Health Research Board

# What is HRB Open Research?

- Publishing platform launched in Feb 2018 for HRB grantholders
- Run by F1000 as service provider using open publishing model: Open access CC-BY; Open data; Open, post-publication peer review
- Focus on publishing all quality research outputs and offering a variety of article types
- 563 publications to-date

- Number one most popular publishing venue for HRB funded researchers since 2018
- **Diamond model** service costs and APCs paid centrally by the HRB, zero cost to authors for publication
- Same model as used on other open research funder platforms including Wellcome Open Research and Open Research Europe

# How it works?

#### **Our Publishing Process**

#### Article Submission

Submission is via a single-page submission system. The inhouse editorial team carries out a comprehensive set of prepublication checks to ensure that all policies and ethical guidelines are adhered to.

#### Publication & Data Deposition

Once the authors have finalised the manuscript, the article is published within a week, enabling immediate viewing and citation.

#### **Open Peer Review** & User Commenting

Expert reviewers are selected and invited, and their reports and names are published alongside the article, together with the authors' responses and comments from registered users.

#### Authors are encouraged to publish revised versions of their article. All versions of an article are linked and independently citable. Articles that pass peer review are indexed in external databases such as PubMed: all published articles are included in Google Scholar, irrespective of peer review status.

### **Transparent pricing schedule**

#### Annual charge

- Platform maintenance
- Monitoring, evaluation and reporting
- Communication and engagement

### Indexation

### Wide variety of article types

# Why should HRB researchers publish here?

- **Fast** articles published within a week once prepublication checks are passed
- Inclusive can publish <u>all</u> your research outputs, including methods, study protocols and null results
- **Open** fulfils HRB OA requirements
- **Reproducible** data published alongside article
- **Transparent** open peer review offers credit for reviewers
- **Easy** costs are met directly by the HRB

# Thank you!
